

NEWS

CHEMICAL EDUCATION INTERNATIONAL

The Committee on Teaching of Chemistry (CTC) of the International Union of Pure and Applied Chemistry (IUPAC) announces the first issue of the new CTC electronic journal, *Chemical Education International: Material, Life, and Environment*. For more information, see the following Web site:

<http://www.iupac.org/publications/ci/index.html>

Yoshito Takeuchi, Kanagawa University, is the editor-in-chief. The publication was formerly the *International Newsletter on Chemical Education* (INCE).

KHIMIYA/CHEMISTRY

KHIMIYA/CHEMISTRY is the Bulgarian journal of chemical education. The main topics covered by the journal are: News; Letters to the Editor; Education: Theory and Practice; New Approaches; Curriculum Matters; Interdisciplinary; Teaching Efficiency; Teaching Chemical Experiment; Problems; Advanced Chemistry for Teachers; Bulgarian Educational Tradition; Foreign Educational Tradition; People in Chemistry; History and Philosophy of Chemistry; Chemistry and Society; Reviews; New Information Media; Archives; (KHIMIYA) 25 Years Ago. The articles appearing in this journal are indexed and abstracted in Chemical Abstracts.

For more information, see the Web site of KHIMIYA
