

## NEWS AND ANNOUNCEMENTS

### XI IOSTE Symposium

The XI IOSTE Symposium, with the theme "*Science and Technology Education for a Diverse World – Dilemmas, Needs and Partnerships*" will take place from 25-30 July 2004 in the *M. Skłodowska-Curie University*, Lublin, Poland. For more information see the web site: <http://ioste11.umcs.lublin.pl>

### 7<sup>th</sup> ECRICE / 3<sup>rd</sup> ECCE

The University of Ljubljana and Slovene Chemical Society is inviting you to participate in the 7<sup>th</sup> ECRICE, European Conference on Research in Chemical Education and the 3<sup>rd</sup> ECCE, European Conference in Chemical Education. The conferences will be held in Ljubljana, Slovenia from 24 to 28 August 2004.

The leading themes of the conferences are:

- Research in chemical education
- Chemistry teacher training in Europe
- Information communication technology (ICT) in learning and teaching chemistry
- Chemical literacy
- Major developments in chemistry and how they influenced chemistry teaching
- Green chemistry

The conference will include plenary lectures, keynote speakers, workshops, oral communications, and poster presentation. These last two will be peer reviewed. Guidelines to submit abstracts and texts will be given in second circular. The language of the conference is English.

More information and application form are available on the Internet at the following URL: <http://javor.pef.uni-lj.si/~ecrice/>
